History

2

Chamber of Agribusiness Ghana is a non-profit, independent organization, which is not affiliated with local or state government. The Chamber is member driven, and membership is voluntary. The Chamber of Agribusiness identifies, discusses and recommends actions and solutions to the issues and concerns that impacts the growth and development of the Agri-business sector in Ghana and the West Africa sub region that has the potential of affecting the fortunes of our members.

The Chamber serves as the voice of agribusiness industry with utmost commitment to playing a leadership role that is solely dedicated to the betterment of agribusiness sector in Ghana, through deliberate advocacy, lobbying, capacity building and investment as well as using resources and capabilities of members to deliver services that addresses the general needs and concerns of members and promoting the Ghana's economy while establishing international relationship.

The Chamber operates in the general interests of agriculture-agribusiness value chain players and for the development of its associated members – companies and business organizations. The Chamber identifies and serves the needs of its customers and businesses.

The Chamber core focus is to support the development of small and medium-scale enterprises through the provision of comprehensive information, training and advisory services. Other services, are available upon the request by the Chamber's clients or the need for the provision of such services.

Founded in 2017
